Malting plant Dingemans - Stabroek

Project Details

Activities
Buildings
Industrial & logistics

Contractors
Willemen Bouw

location
Laageind 43
Stabroek Belgium
Antwerpen BE

Client
Mouterij Dingemans

Engineering Office
ISP

Construction period
1 year

Start work
08-2017

End of work
08-2018

Since 1875, this malting plant has been processing grain, barley and wheat into typical malt that is used in special beers such as Westmalle, Westvleteren, Rochefort, Duvel, but also in baking. In Stabroek, we helped build the drastic expansion of the malting plant. The work specifically required particularly technically sophisticated expertise. The concrete walls of the sprout boxes (9 by 9.5 metres), for instance, could only show a deviation of maximum 1.5 mm.
