Construction period 2 years 3 months

> Start work 08-2017

Construction of a very low energy business centre of 28,925 sqm. The comple is located right opposite the Calatrava-designed train station. It consists of 4 buildings with modular floor areas ranging from 300 m² to 2,300 m². The buildings contain commercial spaces, offices, 12 residential units and a 102-room hotel. The total area is spread over 10 floors. The entire preliminary study was carried out with a comprehensive environmental approach. This ensured the achievement of BREEAM 'very good' certification in terms of the design phase.

Layout of the building:

- Level -2 and -1: car park (7,370 m²)
- Ground floor: commercial spaces (1,432 m²)
- Levels +1 tem +9: offices (10,225 m²), residential units (1,475 m²) and a hotel (2,870 m²).
