

Railway infrastructure works - Uccle

Project Details

Activities

Civil Engineering
Bridges
Railway infrastructure & stations
Road construction
General roadworks

Contractors

Willemen Construct

Location

Horzelstraat 300
1180 Ukkel Belgium
Brussels BE

Client

Infrabel

Engineering Office

TUC Rail

Construction period

3 years 5 months

Start work

01-2011

End of work

06-2014

The project consisted of infrastructure work along the track bed platform where railway lines L124 and L26 intersect. Several bridge decks were renovated and noise barriers installed, including 2,000 m² of green walls. For the Moensberg station at Uccle, new platforms have been built. Simultaneous with these main works diverse road, bedding, demolition, earth- and sewerage works were performed.

Some figures:

- Earthworks: 50,500 m³.
- Steel delivered: 680 tonnes.
- Concrete TPG: 8,800 m³.
