Engineering Office
TPF Engineering, Arcadis, D2S international

Special features BREEAM

Construction period
1 year 8 months

Start work
08-2014

End of work
04-2016

This office building project is developed in downtown Charleroi, on a plot bounded by the Boulevard Joseph Tirou, the Rue Jean Monnet, the Rue de la Fenderie and the Quai de la Prison. It provides a new use, within the urban fabric, to a plot formerly serving as an open air parking lot. The 11,400 m² project involves constructing an office building with 9 above-ground levels (ground floor and 7 levels accessible to employees, plus a technical floor) and 3 basement parking levels with 76 places, including 3 for disabled persons and a dedicated parking area for more than 40 bikes. Developer Charleroi Tirou Promotion SPRL was looking to achieve a particularly environmentally efficient building meeting the BREEAM "Very Good" standard.
