

## IMEC Cleanroom - Heverlee

### Project Details

#### Activities

Buildings  
Industrial & logistics

#### Contractors

Willemen Construct

#### location

Kapeldreef 75  
3001 Heverlee Belgium  
Vlaams Brabant BE

#### Client

IMEC

#### Price

€19.000.000

#### Architects

M+W Group

#### Temporary partnership

Willemen General Contractor,  
Aannemingen Janssen, Van Laere

#### Engineering Office

Abetec

#### Construction period

11 months

#### Start work

12-2014

#### End of work

11-2015

Thanks to this state-of-the-art laboratory, Leuven-based nanotechnology company imec, together with its global partners, is able to carry out further research into new technologies to make microchips even more powerful, more efficient, smaller, and more energy-efficient. The cleanroom is equipped with the latest gadgets and a 'waffle table', so that vibrations are not possible. This is important because nanotechnology requires extreme precision. In addition, the cleanroom cannot contain any dust particles. That's why there's constant air circulation.

### Willemen Construct

Boerenkrijgstraat 133  
2800 Mechelen, Antwerpen  
(Belgium)
