Franki, Duchêne

Engineering Office
TPF Engineering

Special features BREEAM

Construction period
3 years 1 month

Start work
03-2015

End of work
04-2018

Shopping centre Les Bastions was completely renovated and expanded by 10,000 m², accounting for a total of 40 new shops. The outdoor car park was partially replaced by a two-level underground car park with a capacity of 1,150 cars. Lifts and escalators give visitors direct access to the new shopping gallery from this car park. The public space between shopping centre and retail park now has large areas of greenery, water features, cycle paths, bike racks, pedestrian zones and a bus stop.
