Architects

Arteum Architects

Engineering Office

Sweco Belgium (stabiliteit)

Construction period

10 months

Start work

03-2023

End of work

01-2024

At the SCK site in Mol, Franki Construct is building a new production facility for medical radioisotopes. The CRF building will consist of two zones:

- A controlled zone with a number of clean rooms for isotope production, areas for packaging the products and waste management, and radiological laboratory areas for checks and preparations.
- A zone with office spaces, a meeting room, a chemical laboratory space for preparations and sanitary facilities.
