## **Central Radiochemical Facility - Mol**

## **Project Details**

Activities Civil Engineering Heavy industry

Contractors Willemen Bouw

location Boerentang 200 2400 Mol Belgium Antwerpen BE

Client SCK CEN Stichting Openbaar Nut

> Architects Arteum Architects

Engineering Office Sweco Belgium (stabiliteit)

> Construction period 10 months

> > **Start work** 03-2023

End of work 01-2024 At the SCK site in Mol, Franki Construct is building a new production facility for medical radioisotopes. The CRF building will consist of two zones:

- A controlled zone with a number of clean rooms for isotope production, areas for packaging the products and waste management, and radiological laboratory areas for checks and preparations.
- A zone with office spaces, a meeting room, a chemical laboratory space for preparations and sanitary facilities.
