Architects
Q-Bus

Engineering Office
AB Associates, RACO

Special features BIM

Construction period
1 year 4 months

Start work
03-2019

End of work
07-2020

The brand-new Junior Campus newbuild offers 6,000 m² of space over four floors. It houses 12 spacious technical classrooms, 13 normal classrooms, two training kitchens, three laboratories, a staffroom and a home economics room. The building stands out because of its sleek, contemporary design, and because of a few fun architectural nods to the existing educational infrastructure. On top of that, the project is an absolute textbook example in terms of BIM.
